Project 19-2410

ADVANCE NOTICE
Sanitary Sewer Relining and Maintenance Hole Rehabilitation
Ninth Line and Erin Centre Boulevard

Peel Region will be working in your neighbourhood within the next year to rehabilitate the existing sanitary sewer system and maintenance holes (commonly called manholes), as shown on the attached maps. Sanitary sewers are underground pipes that carry wastewater from your home to a water resource recovery facility. Wastewater is created when water is flushed down the toilet, or goes down the drain in your sink, tub, or shower.

Important note

This upcoming construction will take place in the municipal right-of-way and within permanent easements.

- The municipal right-of way includes the street and the land owned by your city between the street and your water service box (small, round metal valve in either your driveway or lawn).
- An easement is where Peel Region has obtained legal access to enter your property for the purposes of maintaining and improving Regional infrastructure.

This work may impact the bottom of your driveway and the area around the sidewalk. We therefore recommend delaying any major landscaping or driveway paving until after this construction has been completed.

Before construction begins

Before we start construction, you may notice several activities in your area:

1. We will survey your street and use temporary spray paint or flags to mark the location of underground gas, hydro, and cable on roads, driveways, and lawns.
2. We will take pictures and record video to help us restore the area as close as possible to its former condition, after construction takes place.

We expect these activities to take place in the beginning of January 2025.

Traffic and parking

This work will require digging trenches in the street and temporarily occupying some lanes. Traffic on Ninth Line will continue to have one lane open in each direction throughout the construction period.

Temporary Road Closures

- Parkgate Drive at Ninth Line
- Freeman Terrace at Ninth Line
- Talias Crescent between 3883 Talias Crescent and 3859 Talias Crescent
- Deepwood Heights at Ninth Line
- Janice Dr at Ninth Line
- Henrietta Way at Ninth Line

We expect the road closures to occur for approximately two to three weeks. Detour signs will be posted to direct the follow of traffic where closures are in place

We apologize for any delays or inconvenience resulting from these traffic impacts.

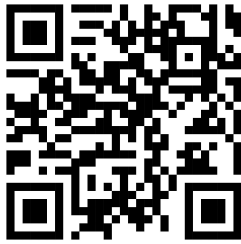

Temporary trail closures

Temporary trail closures will be required along **Lisgar Meadow Brook Trail** as a result of construction. We anticipate this closure to be 2-3 months. We will deliver more detailed information to homes and businesses closer to the proposed construction date. We apologize for any inconvenience this may cause and appreciate your understanding and patience.

In addition, as your city's future planning activities may change, we may alter our plans to improve sanitary sewers in your neighbourhood.
